

COLOR TECHNOLOGY SITE INFORMATION

This abandoned site was previously used for manufacturing paints and coatings. The site consists of three cinderblock production/office buildings and parking lot situated on a 1/2 acre lot in a residential area.

The site contains approximately 100 55-gallon drums, 10 production vats, and sixteen underground storage tanks. These containers hold various flammable liquids, paints and solvents. In addition there are several thousand lab reagent containers.

The date of abandonment is unknown but fairly recent. The site was referred verbally to EPA on May 27, 1997.

EPA's investigation of the site on May 27, 1997, confirmed the presence of the above referenced hazardous materials. The owner of the property (PRP) has not yet been determined.
